

Johannesburg 19<sup>th</sup> October 2023

To Whom It May Concern,

I am writing this letter of recommendation on behalf of Prefab Modular, based on our recent experience working with them on a critical project at Remote Site Solutions Mozambique. In February 2023, Prefab Modular undertook the construction of an offsite containerized Mega Industrial kitchen, and I am pleased to express our complete satisfaction with their performance.

The project involved building a state-of-the-art industrial kitchen within a tight timeframe, requiring precision, efficiency, and adaptability. Prefab Modular not only met but exceeded our expectations in every regard. They accomplished the entire project from start to finish in a remarkable 15 days, an impressive feat considering the complexity of the task.

One of the standout features of Prefab Modular's work was the exceptional quality they delivered. The craftsmanship and attention to detail in every aspect of the containerized kitchen were outstanding. They seamlessly integrated all the cooking equipment into three distinct cooking lines, ensuring optimal functionality and efficiency in our culinary operations.

Furthermore, Prefab Modular successfully connected the containerized kitchen to our existing brick and mortar kitchen, creating a seamless transition between the two spaces. This integration was crucial for our operations, and they executed it flawlessly, ensuring that our kitchen functions as a cohesive unit.

What makes Prefab Modular's performance even more remarkable is the challenging weather conditions they faced during the construction. Hurricane Freddie brought inclement weather, which could have posed significant delays and obstacles. However, Prefab Modular's team displayed remarkable resilience, dedication, and adaptability, working through adverse conditions to meet our project deadline without compromising on quality or safety.

On behalf of the Remote Site Solutions Group, I would like to extend our sincere thanks and appreciation to Prefab Modular for their outstanding work and unwavering commitment to the success of our project. It is without hesitation that we recommend Prefab Modular for future projects, as their expertise, professionalism, and dedication to excellence are truly commendable.

Should you require any further information or have questions regarding Prefab Modular's performance on our project, please do not hesitate to contact me.

Sincerely,

*Marcus Rathje*
